

## Local government department in full control through advanced VMware monitoring, operations and optimizations

### PROBLEM

- Complete VMware monitoring overview, including EXSi and vCenter systems needed
- No real end-to-end picture of all VMware stacks
- Where to start with optimizing the VMware environment

### WHY NiCE

- Full end-to-end monitoring, including all components
- Key indicators for system optimizations easily revealed
- Best cost/value balance in licensing and operations

### RESULTS

- Single pane of monitoring for the entire VMware stack
- Complete VMware estate visible and under full control
- Very economical and proactive approach to VMware operations, issues and outages
